CHAPTER I
INTRODUCTION

A. Background of The Problem

Culture is the nation’s identity that must be preserved its existance. A civilized nation would be seen if the people have good habits and hold on they cultures. Social human beings will always interacting with other creature. Thus, their sense and behaviour will be shaping up the culture of environment. Culture in Indonesia based on principles contained in Pancasila. It was decision of Indonesia that Pancasila are the foundation of state, the state philosophy, and ideology of Indonesia. That principles are the principle of divinity, the principle of justice and civilized humanity, the principle of unity of the nation, the principle of democracy, and the principle of social justice.\(^1\) The fifth of principles are very important for human living in socialization process of society.

Based on “The Pew Forum on Religion and Public Life” in 2010, Indonesia is the largest Muslim country in the world. Al-Qur’an is the basis and guidelines for Muslim all over the world. Al-Qur’an is the holy book of God which contains the words of His, which was given to cover the apostles and prophet Muhammad SAW.\(^2\)

Al-Qur’an was describes –from the stories of the messengers that the apostles were all proponents of monotheism and polytheism opponents who

\(^1\) Supartono W., *Ilmu Budaya Dasar*, (Bogor Selatan: Ghalia Indonesia, 2004), p. 44.
have destructives mind of their lives.\textsuperscript{3} Therefore, al-Qur’an has verses about the propriety of Prophet and God, with come out on top, describes al-Qur’an verses, and the goodness of witness scholar scribe. The history and cases have proven that all of laws in al-Quran is creates the goodness and useful for humans. In fact, today the Muslim are getting away with al-Qur’an, along with the frequent confusion made by some people in understanding and interpretation of al-Qur’an, whereas every Muslim has obligation for interacting by reading, listening, memorizing, understanding, and interpret of al-Qur’an.\textsuperscript{4} Hazardz which faced by humans as a result of the advancement of science and technology, and human inadvertence in realizing the weaknesses that make it forget the element of spirituality in their self.\textsuperscript{5}

The 21\textsuperscript{th} century is called the era of globalization has been faced to the advancement of science and technology. Advances of technology produce the transportation tools and modern communications that make the people more to communication in this world easily and quickly. If the Muslim can not control and filter the western culture and advanced facilities who more and more influence of globalization over time will be destroy the Islamic values Muslim’s lives.

Al-Qur’an is a guide for every Muslim. Read it becomes a thing to be done, so that every Muslim to know the truth. Not just read, analyze and practice is the key to salvation in this world and hereafter. As Muslim are

obliged to interact with al-Qur’an to understand and interpreting, reading, listening and ponder. Al Quran invites to create a human world to know each other and not to isolate their self, forgiving each other, as well as to cooperate in goodness and piety, not in evil and hostility. Muslim are obliged to treat the al-Qur’an as well: to memorize and remember, read and listen to, and interpretation and ponder.⁶

The first, Muslim intellectuals are required to constantly study the Holy Book in order to practice and describe its values are of a general nature to be drawn from their clues that can be donated or taught to the public, the nation and the state, which is always evolving, changing and increasing needs. Secondly, they are also required to continue to observe the verses of God in the universe, both in human beings individually or in groups, as well as observing natural phenomena.⁷

Humans as social beings must communicate and interact with others to improve their personal capacities in the community. To organize people needed a container to survive. Organizations and communities be one alternative to improve the quality of individual and group. Organizations that effectively have an internal culture that reinforces for excellent quality. Culture means a system of values and a shared belief that generate behavioral norms, values (what is important) and beliefs (how the way to do) interact raises the norm (what we have to do something).⁸

Positive activities and preserve the values of Islam being responsible for all Muslim. Love for the Qur'an and practice it is a reflection of Muslim who have good attitude. Civilizing people to reading al-Qur’an everyday for Muslim from various society is the vision of the community of One Day One Juz (ODOJ) Cilacap. Built a tradition of grounding al-Quran be the spirit of this community. Social media used for increasingly sophisticated utilized in order to closer to Allah. Those for invite the community to progressing to love al-Qur’an. By reading (recitations), listening, study and practice the verses of the al-Qur’an is a form of love to al-Quran. The formation of the community will move sparked a passion for achieving the same goal, to strengthen brotherhood Islamic and silaturrahmi between communities. Muslim brotherhood will deliver humans to concrete results in the real life.

Based on the background, researcher are interested in studying and discussing more about the civilizing people to love al-Qur'an in the community of ODOJ Cilacap by the reason, (1) as Muslim have to civilize of Qur’an that actually required to keep and maintain the practice –implement the contained of al-Qur'an in the era globalization is growing, which as long as researcher know there has been no previous similar studies, (2) researchers aim to give the sense that al-Qur’an as a holy book that serves as a guideline and guidance Muslims should be maintained and practiced through the work by continuous positive activities within the community, (3) the results of this study are expected to contribute to the whole society-particularly Muslim— that proof of love for the al-Qur'an more easily be carried out through the
habits and positive activities facilitated by a community or organization to increasing of passionate love to the al-Qur'an.

B. Operational Definition

To avoid misunderstanding about the title, the researcher will be explain the definition contained in the title of thesis, are:

1. Civilizing people to love al-Qur’an

The word 'civilizing' comes from the word 'culture', which means love, intention, and feel. Culture is the result of cultivation of human creativity. According E.B. Tylor in the book of *Social and Cultural Association*, culture is a complex whole which includes knowledge, belief, art, morals, science, law, customs and other capabilities and habits acquired by man as a member of society. Get the prefix of *pe-* and the suffix of *–an*, so the meaning is process. So the familiarization can be defined as the process of making something custom or habit made for humans as members of society.

Love is really like the feel (to) or compassion (for), or the feel very love or very interested to it. While the al-Qur'an is the word of God that revealed to the Prophet Muhammad that its recitation is a way of

worship.\textsuperscript{13}Al-Qur’an teach the progression of religion by the process of study.\textsuperscript{14}

2. Community of ODOJ Cilacap

Community of ODOJ Cilacap is an association of people that civilize the al-Quran in society. The community of ODOJ Cilacap has two programs are online and offline programs. Online is the activities that the members active in social media through the application WhatsApp\textsuperscript{15}, BlackBerry Messenger (BBM)\textsuperscript{16}, Facebook, Website, for the broadcast of religious knowledge, and report tilawah in each group WA. For online group, the members are not just Cilacap people, but mix of the members of ODOJ (ODOJer) from various regions. In online groups, they have to finish for read al-Quran every day a Juz. Offline program are the people can meet to held some activities to develop the quality of the society in reading, understanding and practice of Islamic values through the al-Qur’an.\textsuperscript{17}

E. Literature Review

A literature review research is relevant theories with the problem that will be researchched. It will be the basic thinking in the research arranging. The researcher also applies more relevant theories. Then the researcher see some differences among the previous research.

One of the books that relate to love al-Qur'an written by Syeikh Abdul Qadir Isa, *Cetak Biru Tasawuf: Spiritual Ideal Dalam Islam* (Ciputat: Ciputat Press, 2007), the contents of this book are about the signs of love, how to loving God and His Messengers, how to loving al-Quran, the characteristics
and main objectives of al-Qur'an, interacting with the al-Qur'an memorization, reading and listening, interact with the al-Qur'an through understanding and interpretation, and interacting with the al-Qur'an by respect and glorify, practice, sosialized, get to know the meaning and maintained. It is very supportive discussion civilizing to love al-Qur'an in completing the writing of the study of theory in this thesis.

The book of love to al-Quran in society was also written by Said Agil Husin Al-Munawar, *Al-Qur’an Membangun Tradisi Kesalehan Hakiki*, (Ciputat: PT. Ciputat Press, 2005). The contents of this book about how to build the Qur’anic generation in society, the caracteristics of qur’anic generation and the efforts to developing spiritual values.

In addition those books there are also scientific papers, in particular thesis is concerned with this thesis, including the thesis by Kurniman Sidiq and Mohammad ‘Ulyan.

1. Thesis Kurniman Sidiq (2015), Faculty of Education and Teacher Training IAIN Purwokerto entitled "Pendidikan Karakter Melalui Pembiasaan Tadarus Al-Qur’an di SMP Muhammadiyah Sumbang", explain that through habituation of tedarus the al-Qur’an can be establish values the student's character. The driving factor of the successful establishment of these values is the support of the environment, the soul of religion, positive attitude of students, and have good cooperation between teacher and students, while the inhibiting factor is the spirit tedarus of students who are still lacking, and the lack awareness from
sincere heart of the students are still depending on the rules reading (tadarus) al-Qur’an in the scool.

The effort to developing spiritual values should not only withstand the negative effects of modernization, but also can influence and provide direction for the formation of the level of people's lives in a creative, dynamic, and religious. Thoses efforts are:

(1) Develop an attitude of anticipation as the implementation of the principle of *al-muhafazah 'alaal-qadim al-shalih wa-akhzu bi al-jadid al-ishlah* (maintaining a good long while, and take a new that better than before). This principle encourages us to remain open to new values are positive that does not conflict with the teachings of Islam, but retaining the old values are good. Actually to face the modernization and technological development required is a creative attitude and selective.

(2) Create the creative attitude as the principle of *iqamat al-maslahah* (build the prosperity). This principle encourages to actively look for
alternatives and produce products that can build the welfare of the people.

(3) Combines amali between the values practiced and understanding of those values. The values of sociologically have influence to shaping your own self, then the values that are thought will provide motivation and steadiness in practice these values and provide answers to the demands of the global era.
